Nouvelle famille – Première fondation cambodgienne d'aide à l'enfance défavorisée

# ANNUAL REPORT 2025

## A Royal recognition: Krousar Thmey at the Royal Palace

In late 2025, Krousar Thmey's leadership was deeply honored by a royal audience granted by His Majesty Preah Bat Samdech Preah Boromneath Norodom Sihamoni, King of Cambodia, and Her Majesty the Queen Mother. During this prestigious occasion, Mr. Benoît Duchâteau-Arminjon, Founding President of Krousar Thmey, presented his book, *Aide à l'Enfance Cambodgienne: Agir et Transmettre*. The book chronicles the foundation's historic journey, including:

- The creation of Khmer Braille and Khmer Sign Language.
- The establishment of the kingdom's first schools for children with visual and hearing impairments.
- The successful transition of these schools to the Cambodian government in 2019.

Receiving such a high level of recognition from Their Majesties is a profound tribute to Krousar Thmey's decades-long commitment to protecting Cambodia's most vulnerable children

After the COVID years, there was hope for a recovery in tourism and development in Cambodia, but that was without taking into account the conflict with neighboring Thailand, which have plunged Cambodia back into a difficult situation: fighting along the border, population displacements, a halt or decline in tourism... everything Cambodia would have wanted to avoid.

Despite this pessimistic note, we can only be heartened by the adaptability of our teams on the ground, who have continued to provide essential assistance to underprivileged children. Under the leadership of Darong, our Executive Director, the teams have adapted to the challenges to carry out their mission as effectively as possible.

“ Every visit to Cambodia is, for me and for us, a source of pride the pride that comes from the success of a genuine development program that we are happy to continue supporting ”

The reorientation of our aid policy was part of this effort and has proven to be entirely justified. Our biannual visits consistently demonstrate the effective commitment of the Cambodian teams to our own activities and the excellent continued operation of the schools for blind or deaf children, which six years after being transferred to the government continue to operate and have even expanded to educate more children.

We are celebrating 35 years of activities in 2026 since Krousar Thmey began in Site II camp in March 1991, and, having returned to France after 30 years in the field, every visit to Cambodia is, for me and for us, a source of pride the pride that comes from the success of a genuine development program that we are happy to continue supporting.

**Benoît DUCHÂTEAU-ARMINJON**  
Krousar Thmey, Founding President

The year 2025 marked a defining year for Krousar Thmey. As the 2021-2025 strategy drew to its close, Krousar Thmey has undertaken significant transitions to prepare our 2026-2028 chapter for the increasingly uncertain local, regional, and global landscape.

**“As you read this report, you will see an organization that is agile in crisis and steadfast in its vision.”**

This year, Krousar Thmey did not witness the rising geopolitical tensions on our fundraising front; our organization witness firsthand how the Cambodia-Thailand conflict impacted the well-being and safety of the community of disadvantage Cambodia children that we served.

The global crisis has not spared Krousar Thmey on one hand. On another hand, the external shocks fell in the way – tension at the border with Thailand tested our creativity and resilience. While the operations were challenged in the North, we were merging the Teuk Thla Temporary Protection Center into Takhmao

Long-term Protection Center in the South, with renovation work of the latter to protect it from seasonal flooding.

For the first time, Cambodian donors and private partners were approaching us to collaborate for development projects, rather than focusing on one-shot charitable events. This emergence of local fundraising proves a historic shift for the organization’s donations channel.

From pioneering new resource libraries (Cambodia Braille Library) for the visually impaired to fostering the empowered marginalized community, we are proving that every child deserves care and rightful place in society for their development. As you read this report, you will see an organization that is agile in crisis and steadfast in its vision.

My deepest thanks to our amazing team who have stood with us through thick and thin and to you, our donors and partners, for making our mission possible.

**CHOUR Darong**  
**Krousar Thmey, Executive Director**

# KROUSAR THMEY AT A GLANCE

The 1st Cambodian organization helping disadvantaged children, founded in 1991 in the Site II refugee camp in Thailand.

Krousar Thmey offers a portfolio of cross-cutting programs and projects supporting over **3078 children in their development in 2025**: Child Welfare, specialized and inclusive Education for Deaf or Blind Children, Cultural and Artistic Development, Academic and Career Counseling, as well as Health and Hygiene.

**In 2025, 3155 people have benefited from the Foundation's activities.**

In the spirit of sustainable action, Krousar Thmey ensures that its support **does not lead to any privilege, dependence or disparity in the community.**

Krousar Thmey's main principle is the development of projects **led by Cambodians for Cambodians.** Only two European volunteers provide the organization with support in communication, donor relations, and grant contract management.

## OUR VISION

A world in which all children are empowered to grow into independent and responsible adults

## OUR MISSION

Enable the integration of underprivileged children into Cambodian society through education and support adapted to their needs, with respect to their traditions and beliefs

## OUR VALUES

### IDENTITY

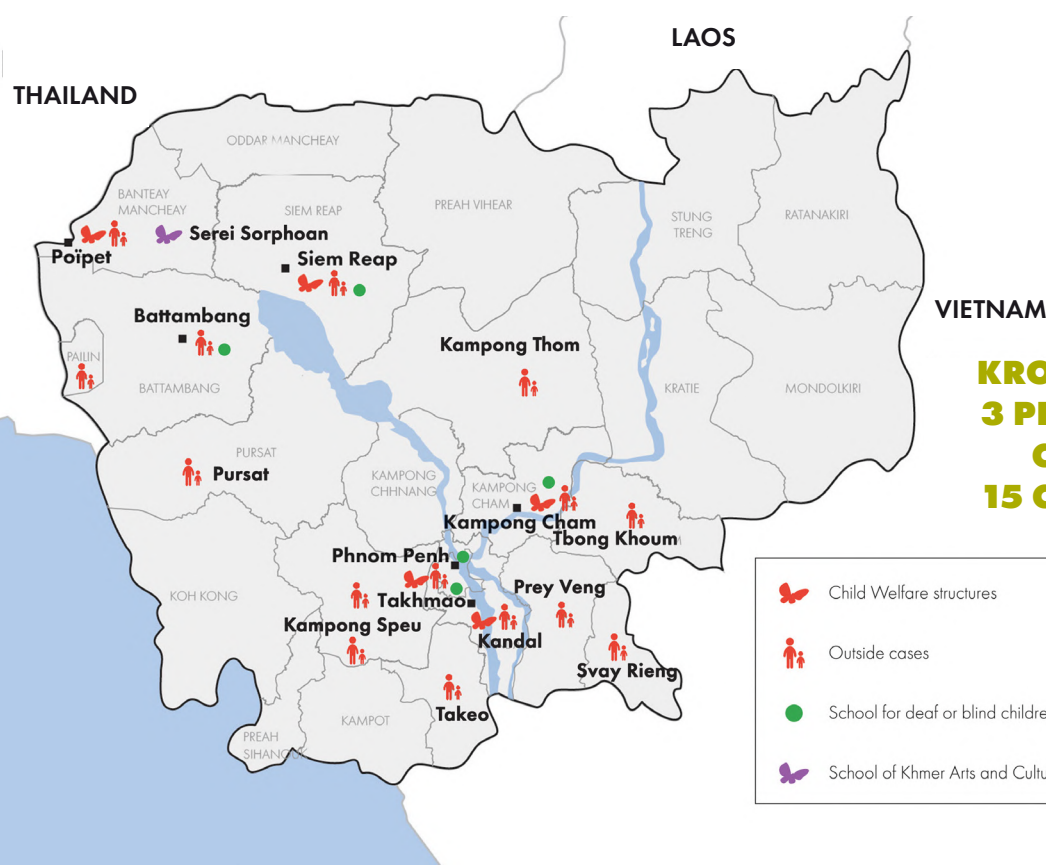

every child can reconnect with their roots and traditions

### INTEGRATION

every child is fully integrated into Cambodian society

### DIGNITY

every child is respected and can build the future they deserve

**KROUSAR THMEY OPERATES 3 PROGRAMS AND 2 CROSS CUTTING PROJECTS IN 15 CAMBODIAN PROVINCES**

# INTERNATIONAL NETWORK

**Krousar Thmey** benefits from the support of various entities around the world. Their fundraising and communication networks greatly contribute to the success of all programs thanks to their communication and fundraising operations.

## CHILDREN AND YOUTHS SUPPORTED BY THE ORGANIZATION

### OUR PROGRAMS ↴

#### CHILD WELFARE

- 240** Children directly supported
- 459** Children identified during outreach
- 115** Children welcomed into our structures
- 127** Children followed-up as outside cases
- 39** Children reintegrated into their families

#### EDUCATION FOR DEAF OR BLIND CHILDREN

- 768** Students in the five special schools
- 56** New special education teacher trained
- 727** New signs created
- 1704** Books in braille printed

#### CULTURAL AND ARTISTIC DEVELOPMENT

- 1088** Students at the School of Khmer Arts and Culture
- 115** Children and youths benefited from cultural and artistic activities in our structures
- 17** Students in the art school's permanent troupe

### OUR CROSS-CUTTING PROJECTS ↴

#### ACADEMIC AND CAREER COUNSELING

- 378** Youths supported
- 198** Students in high school
- 95** Youths in employment
- 70** Youths enrolled at university
- 12** Youths in vocational training

#### HEALTH AND HYGIENE

- 115** Children monitored by local doctors
- 100** New children vaccinated
- 68** Members received first aid training
- 85** Children monitored by psychologists

# STRATEGY AND PRIORITIES

## STRATEGY IN 2025

Krousar Thmey global strategy focuses on embedding its thirty-year legacy into the Cambodian public sector. This involves finalizing the technical handovers of specialized curricula to the Ministry of Education and advocating for the institutionalization of the School of Khmer Arts and Culture by the end of 2025.

The evaluation of Krousar Thmey's outcomes has proven that the organization has accomplished most of its strategic goals set in 2025. The Child Welfare Program has achieved 72% of its objectives, whilst the Education for Deaf and Blind Program has remarkably attained 100% of its objectives, demonstrating the effectiveness and sustainability of both programs. Despite the limited progress of the Arts and Culture Development Program in 2025, Krousar Thmey projected that it would gain momentum in 2026.

Based on the results, the 2026 strategy enables Krousar Thmey to continue providing a lifeline to communities in need, sustaining arts and culture education, and supporting emerging grassroots associations of persons with disabilities.

### Priority 1: Development of a Holistic Approach

The community-based activities had been extensively implemented in 2025, leaving only some minor goals unmet. These on-the-ground operations build on the mission of Krousar Thmey to support vulnerable children within its community-based protection shelter and embodies the holistic approach of the Child Welfare Program.

Following the 2024 preparation, 2025 saw the full operationalization and efficiency of the Academic and Career Counseling (ACC) project within its North/South division. On top of this, we have successfully merged our (Tuek Thla temporary protection center) into Takhmao protection center to reduce structural cost and prioritize our community-based empowerment.

The 72% attainment of the Child Welfare program's objectives demonstrates that the priority goals of 2025 have been accomplished, and that the overall program has largely been strengthened in accordance with its 2025 strategic goals.

### Priority 2: Continuous collaboration with the Ministry of Education and the National Institute for Special Education (NISE)

In 2025, the last stage of the transitional period was fulfilled. The Ministry of Education has set up many new funded activity lines for the NISE to follow the same pattern transferred from Krousar Thmey in 2019. This ensures the full integration of activities under the Education for Deaf and Blind Children Program into the public education system in a sustainable manner. This achievement positioned Krousar Thmey to pursue a new direction in 2026, further advancing its disability inclusion mission in Cambodia.

### Priority 3: Continuous transition of Krousar Thmey

Despite challenges, the integration of the Serey Sophon School of Khmer Arts and Culture into public services has advanced significantly with the support of the Ministry of Culture and Fine Arts. Despite the delays experienced in 2025, Krousar Thmey — guided by the organization's philosophy of "Project led by Cambodian" — is committed to making every effort to ensure that the arts and culture program will be successfully integrated in 2026, further allowing the organization to move forward with its new advocacy priorities.

### Priority 4: Continuing to actively seek out local fundraising opportunities

Krousar Thmey has consistently increased our visibility and diversified our opportunities across local fundraising campaigns. 2025 was the year that we received the highest amount of funding from our local Cambodia's network. This emergence of local funding channel, however, remains fragile and relatively low compared to our international network. With the widespread scaling down of projects and funding across the international development field, Krousar Thmey's projects to support marginalized communities and children in Cambodia face considerable risk.

# HIGHLIGHT OF

## JANUARY

In partnership with AEPK, Krousar Thmey conducted health and hygiene outreach events for the Poipet community

## FEBRUARY

The staff retreat aimed at strengthening team solidarity, reflecting on past achievements and challenges, and setting new goals and strategies.

## APRIL

Mobilized local support through a fundraising campaign dedicated to the modernization of the Takhmao Protection Center

## MAY

Facilitated successful youth transitions into vocational and university programs.

## JULY

Connecting students with special needs to vocational training partners in Siem Reap to enhance future employment opportunities.

## OCTOBER

Caregivers, cooks, social workers, health referent, mothers, and school director joined food safety training by local health partner

## NOVEMBER

Founder Benoît Duchâteau-Arminjon premiered his new book, 'For the Cambodian Childhood: Acting and Transmitting', at the French Institute of Cambodia

# YEAR 2025

## MARCH

Krousar Thmey staff across all programs received mental health refresher training conducted by TPO Cambodia to enhance psychosocial support skills

## JUNE

Her Majesty the Queen Mother of Cambodia graciously donated \$20,000 to support Krousar Thmey's mission and programs

## AUGUST

Cooks and caregivers completed food safety and hygiene training to boost service quality and child wellbeing

## SEPTEMBER

Krousar Thmey served as a panel facilitator during the Disability Network, leading strategic discussions on inclusive education and the promotion of disability rights

## DECEMBER

Krousar Thmey joined the International Council for Education of People with Visual Impairment to initiate the development of the Cambodia Braille

## OBJECTIVE

To sustainably **improve** the living conditions, marginalized **children**, their **FAMILIES** and their **COMMUNITY**

***Facilitate the reintegration of marginalized children into their families and society through emotional, educational and material support.***

Victims of neglect, poverty, trafficking or difficult family situations, street children constitute a vulnerable, out-of-school, often traumatized and marginalized population.

The Child Welfare program, which helps children and their families by providing emotional, educational and material support, aims to create the necessary conditions for them to build a better future.

To this end, Krousar Thmey's priority is to strengthen the quality of its care and monitoring of beneficiaries to help reintegrate children into their families.

## PROGRAM OVERVIEW

Krousar Thmey's Child Welfare Program is the core service of our organization in safeguarding Cambodia's most marginalized children and families. This program is informed by three main pillars: Identification, Protection, and Reintegration. Our social workers conducted weekly outreach in areas with high incidences of homelessness and violence to identify those who are encountering or are at risk of trafficking, harassment, or abuse.

We addressed immediate needs, facilitate healing, and cultivate pathways toward long-term empowerment and societal contribution. Our work is informed by a community engagement methodological framework.

The support we provide is contextually tailored, fostering safety, stability, and nurturing environments where children can thrive. Our interventions are therefore designed to mitigate these disadvantages and empower children and families to build resilience.

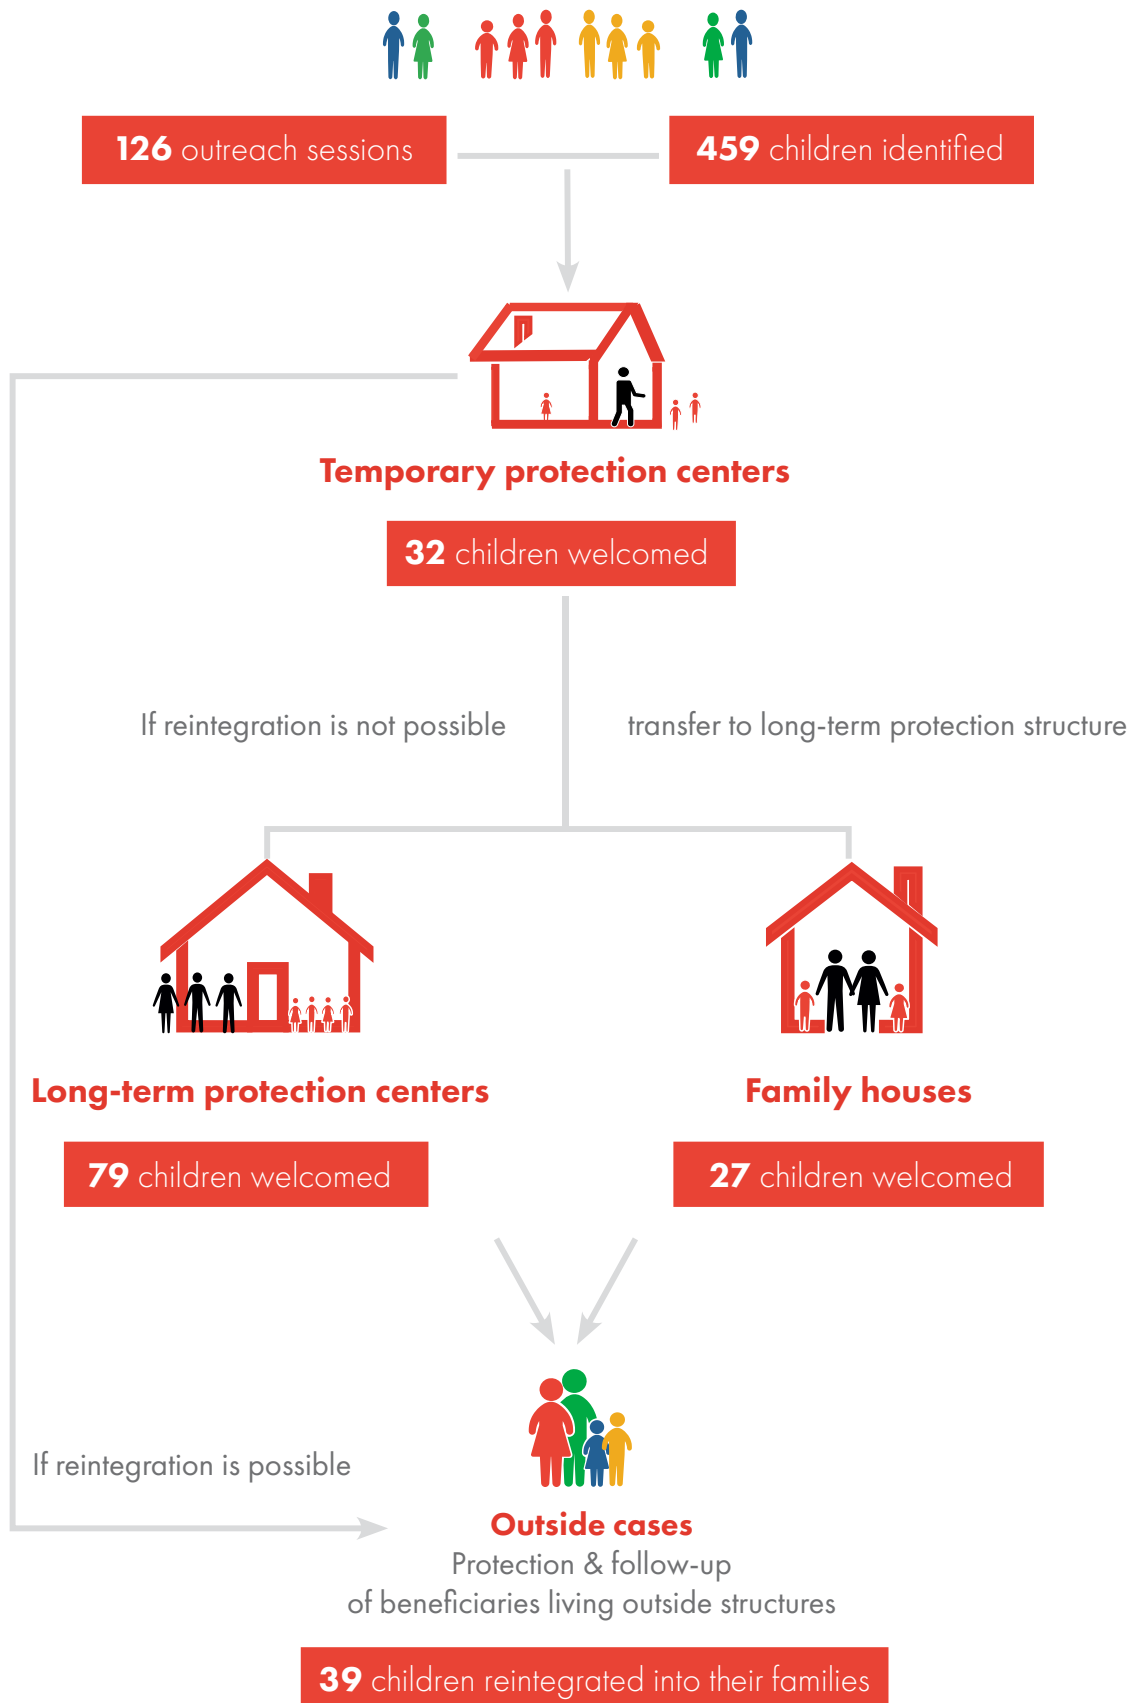

### **Our comprehensive range of services includes:**

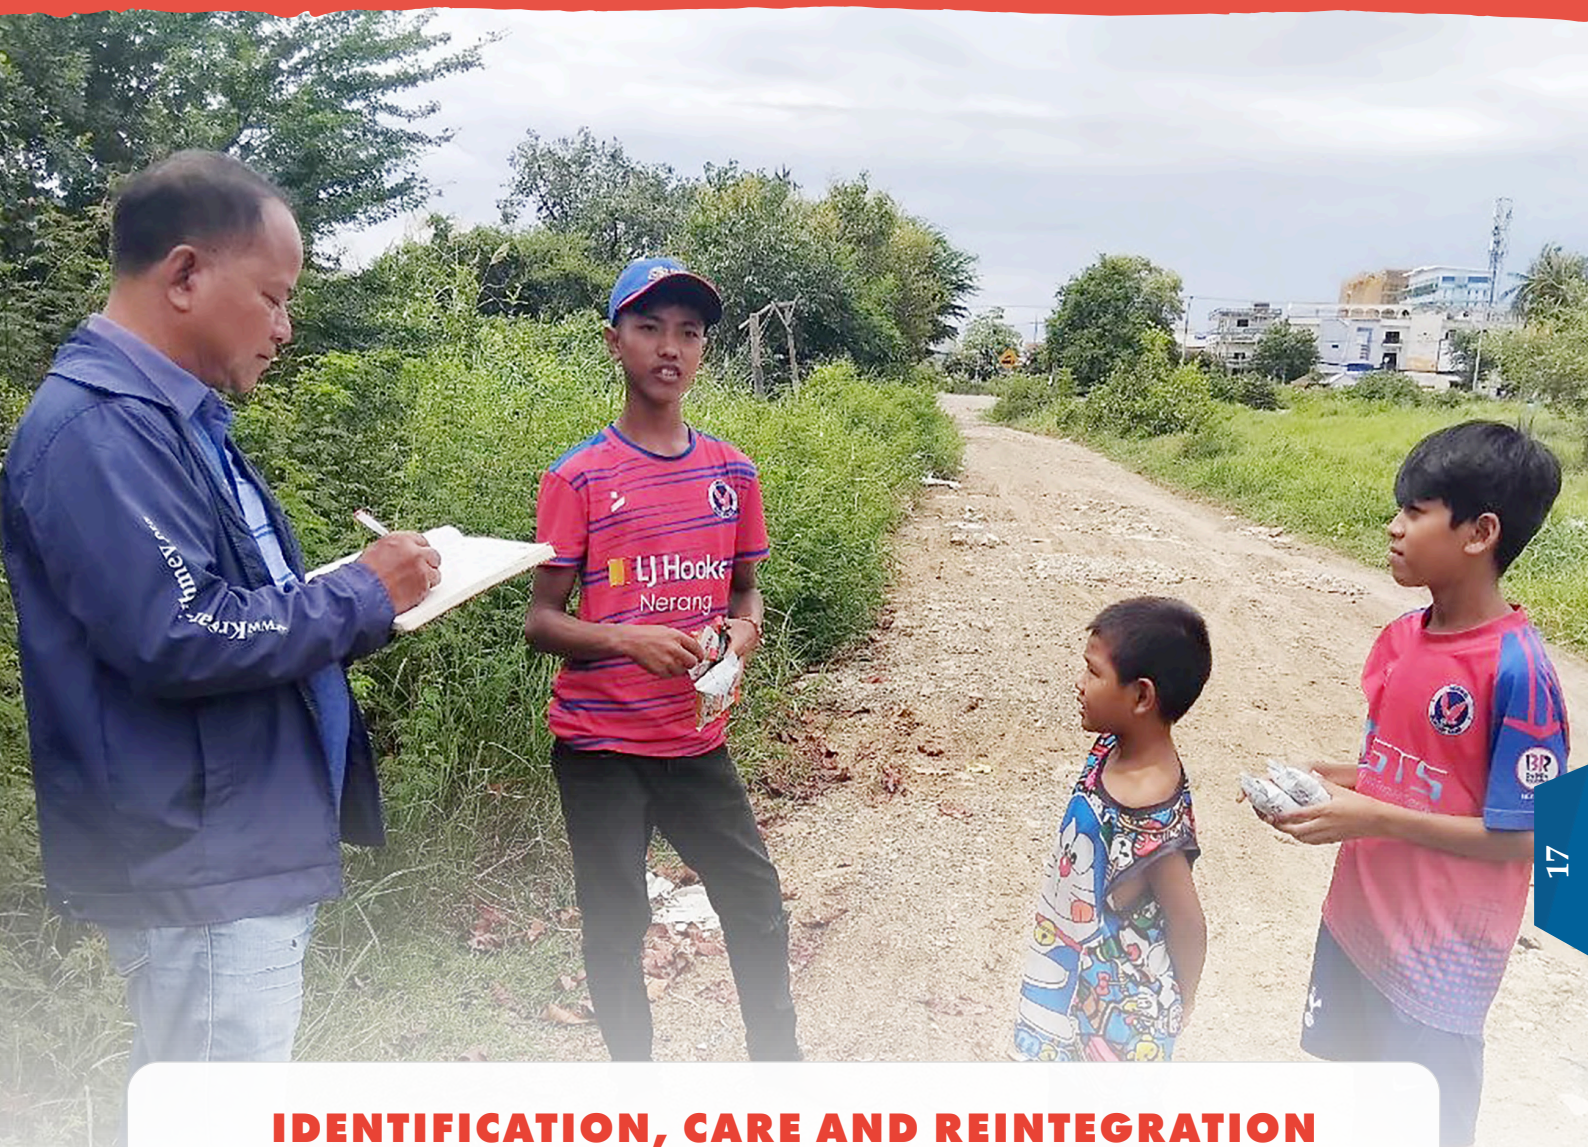

1. *Outreach Activities:* Proactive efforts to identify and reach vulnerable children and families who may not be accessing services
2. *Family Assessment:* Thorough evaluation of family dynamics and needs to tailor appropriate interventions
3. *Provision of Family Houses and Protection Centers:* Safe and nurturing residential environments for children who lack adequate care
4. *Facilitation of Family Integration:* Support and resources to help children safely and successfully reintegrate their families whenever possible
5. *External Case Support:* Ongoing support and monitoring for children and families in the community to ensure their continued well-being
6. *Income Generation Initiatives:* Programs that empower families economically, reducing vulnerability and promoting self-sufficiency
7. *Strengthening Community Child Protection Mechanisms:* Training and support for community members to become active agents in protecting children

Through these interventions, Krousar Thmey strives to create a protective and empowering environment where every child has the opportunity to reach their full potential and contribute to a more just and equitable society

## SUPPORT SYSTEM OF INSIDE CASES IN 2025

Identification of vulnerable children and Assessment of the family situation

## IDENTIFICATION, CARE AND REINTEGRATION

Krousar Thmey's social workers conduct day and night outreach activities to identify children living in situation of vulnerability. Some children may be assessed after several encounters. Several options are available: prioritizing the family reintegration as long as it is possible.

If there is no solution possible, the children will be transferred to one of Krousar Thmey's structures to get support and care. For some cases, the NGO partners or local authorities refer to our center upon their encounter with the children.

Inside Krousar Thmey's structures, the children received non-formal education support, are registered at school, receive healthcare support, receive guidance to their higher education and professional life, and are encouraged to take part in the personal development activities.

Nevertheless, the team keeps assessing regularly every singular case of the children and supports the family to make improvement for future reintegration of the children.

During 2025, our holistic and community-based approach led the Organization to expand its project on Academic and Career Counseling to benefit children and youth supported as outside cases. This initiative contributes to ensure the successful and sustainable reintegration on top of support and training provided to the community.

## RESILIENCE IN CRISIS: NAVIGATING THE 2025 CONFLICT

In 2025, Krousar Thmey's mission in the North Zone was tested by the conflict between Cambodia and Thailand. The Poipet Child Protection Center, situated just five minutes from the frontier, became a zone of high risk, necessitating a temporary suspension of on-site operations for one month.

National Committee for Disaster Management (NCDM) data underscored the gravity of the crisis: half a million people were displaced, with one in three individuals seeking refuge in temporary sites. Our primary focus remained the safety of the children.

We successfully facilitated family reunifications or relocated beneficiaries to our Siem Reap facility. While physical doors were closed, our commitment remained unwavering; social workers established a "digital check in", conducting daily phone follow-ups to identify areas of need and provide emotional support to displaced families.

To mitigate the economic paralysis caused by the conflict, we increased monthly financial support for «outside case families.» Simultaneously, we

prioritized our staffs' stability by providing early salary payments and evacuating them to safe shelters. This proactive management ensured that both our team and the families we serve remained resilient, allowing for a seamless transition back to normal operations once stability was restored.

## INSIDE AND OUTSIDE: DUAL-PILLAR STRATEGY

In 2025, Krousar Thmey's Child Welfare Program advanced a dual-pillar strategy, balancing high-quality residential care with proactive community empowerment to protect vulnerable children.

### Pillar 1: Quality of Care Within Residential Structures

For children facing acute crises such as domestic violence or orphanhood, immediate reunification is unviable. Krousar Thmey provides safe housing through temporary shelters, long-term protection centers, and family houses. Inside these structures, beneficiaries receive a comprehensive care regimen, including healthcare, nutrition, formal education, and vocational training.

To prioritize family preservation, rigorous case reviews are conducted every three to six months to assess safe reunification potential.

### Pillar 2: Community Empowerment and Family Reintegration

Preventing separation and facilitating permanent family reintegration is Krousar Thmey's ultimate benchmark of success.

Once local authorities verify a safe environment, field teams deploy robust stabilization resources. This includes monthly financial subsidies, in-kind donations, livelihood initiatives, and academic and career counseling to prevent school dropouts.

Krousar Thmey also took part in 9 coordination meetings with governmental and non-governmental actors.

## THE RENOVATION OF TAKMAO CENTER

In 2025, Krousar Thmey successfully completed the full-scale renovation of the Takhmao Long-Term Protection Center, addressing five years of severe flooding during Cambodia's rainy seasons. Spanning nearly eight months, the project completely transformed the center's infrastructure by renovating the bedrooms, sanitation facilities, and kitchen, while raising the playground to provide a safer, more flood-resilient environment for the children.

This timely renovation enabled Krousar Thmey to execute a successful center merger, seamlessly incorporating the operations of the Teuk Thla Temporary Protection Center. This is a critical move prompted by government policies to reduce residential care facilities in favor of social work standards. and global funding challenges.

This vital milestone was made possible through the royal benevolence of Her Majesty the Queen Mother, alongside major support from ABA Bank, Raksa Koma Foundation, Enfance Espoir, dedicated

individual donors, and a vibrant local fundraising campaign. Their generosity did far more than rebuild walls; it restored dignity and hope.

**TESTIMONY: MEUN Pannha, 19 years old, beneficiary of Long term Protection Center**

MEUN Pannha, 19, grew up in Village 15, where his family had to move repeatedly between temporary shelters due to financial hardship. This impacted his ability to regularly attend school and integrate into his community. In 2017, Pannha came under the care and support of Krousar Thmey, a turning point that began his journey toward leadership and transformation.

While completing grade 12 at Hun Sen Seripheap High School, Pannha distinguished himself through punctuality, discipline, and a deep commitment to helping others. His creativity and bravery earned him the role of team leader for “Youth of Hope” in the national project Cambodia in My Heart. The competition demanded three months of study and project writing, followed by three rigorous

rounds. For Pannha, the elimination stage was both exhilarating and nerve-wracking, as it was his first time competing at the national level. His project was ranked among the best, securing third place. Through this experience, Pannha gained far more than recognition. He learned self-management, responsibility, teamwork, and time management. His public speaking improved, his patriotism deepened, and he discovered the power of perseverance.

The driving forces behind his success were his own determination, family support, encouragement from teachers, and his unwavering belief in the motto: “I can do.” Guided by resilience and a desire to help others, he transformed obstacles into stepping stones.

Looking ahead, Meun Pannha aspires to become an influential leader in the field of International Relations, using his voice and vision to inspire change.

## STRATEGY IN 2026

**Pilot the efficiency** of the merging of long-term and temporary protection center

**Make use** of the well-trained frontline staff

**Scale up community safeguarding** through localized networks and enhanced partnerships

# EDUCATION FOR DEAF

## OBJECTIVE

Enable children with **visual** or **hearing** disabilities to find their rightful place in society by providing them with access to tailored **education**, and **support** and prepare them for **WORKING LIFE**

# OR BLIND CHILDREN

## ENDURING LEGACY OF INCLUSIVE EDUCATION

*Founded in 1991 at Camp Site II, Krousar Thmey emerged at a time when Cambodia had no educational framework for children with visual and hearing impairments. This particular group endured a bleak reality of systemic exclusion, starved of resources and confined by deep-seated societal stigmas.*

*Defying these perceptions, Krousar Thmey opened the nation's first specialized school for the blind in 1994. This pioneering initiative rapidly expanded into five special schools for deaf or blind children, the creation of foundational tools like Khmer Braille and sign language, and ultimately, the establishment of the National Institute for Special Education (NISE).*

*Guided by the core philosophy of «a project for Cambodians, led by Cambodians,» this monumental journey achieved a historic milestone in 2019 with the official handover of these special schools to the Ministry of Education.*

*The year 2025 marks the definitive conclusion of the 2021–2025 strategic cycle, closing the post-transfer transitional chapter. Today, the vision is an institutionalized reality. NISE has achieved unprecedented sustainability through the gradual step-up of ownership and budgetary support from Ministry of Education, Youth and Sport (MoEYS).*

*This shifting paradigm was vividly demonstrated in 2025, as MoEYS assumed direct funding for critical activities previously sustained by Krousar Thmey, including key initiatives under the Sign Language Development project and the Academic and Career Counseling (ACC) project*

*What began as an impossible dream in 1991 is now fully embedded within national infrastructure. This comprehensive framework of inclusive education has been systematically prioritized, taking center stage within the national Education Strategic Plan (ESP) 2024–2028 ensuring that Krousar Thmey's enduring legacy protects every Cambodian child from being left in the dark.*

# EDUCATION FOR DEAF

## THE CAMBODIA BRAILLE LIBRARY

The Cambodia Braille Library Initiative was established in 2024 to ensure that blind and visually impaired students in Cambodia can access higher education with equity, quality, dignity, and independence.

Combining a physical resource center, an accessible digital platform, and a production unit for Braille materials and assistive technologies, the initiative addresses the significant shortage of educational resources for blind learners.

Founded under the leadership of Mr. MEAN Sothey, a visually impaired individual and former Krousar Thmey beneficiary, the project seeks to expand and diversify Braille production and technological support for university students, and more broadly, to enable people with visual impairments to access information more easily. The Cambodia Braille Library promotes equity by helping reduce dropout rates and improving academic outcomes through access to essential tools. With support from the International Council

for Education of People with Visual Impairment (ICEVI), two libraries are being developed at the National University of Battambang (NUBB) and the Royal University of Phnom Penh (RUPP).

Krousar Thmey actively champions this vision and is committed to mobilizing resources to fully realize the initiative, inviting continued support to build a future where no learner is left behind.

# OR BLIND CHILDREN

## **SPECIAL EDUCATION: CURRICULUM INNOVATION AND EYE HEALTH**

Although Cambodia's special schools transitioned to the Ministry of Education, Youth and Sports (MoEYS) in 2019, Krousar Thmey remains dedicated to improving nationwide standards for inclusive education. As part of these ongoing efforts, and in collaboration with the National Institute for Special Education (NISE) and PAFID, we conducted medical eye screenings for 189 students at the Phnom Penh Thmey Special Education School.

By monitoring the eye health of students with blindness or low vision, we ensure they receive the consistent follow-up care necessary to succeed in their studies. From 2026 onward, the mission will be executed solely by the Ministry of education and NISE.

For the innovative education of deaf learners, a pivotal breakthrough in this mission is the development of a specialized Khmer language

syllabus for grade 1 to 3, a strategic blueprint for educational parity. The syllabus for grade 4 is to come to complete the set before deaf students could join the inclusive classes.

This initiative rests on three pillars: the alignment of national curricula with deaf-inclusive methodologies, the distribution of tailored instructional materials, and the implementation of teaching strategies that respond to the unique cognitive aptitudes of every student.

To operationalize this vision, we recently galvanized 27 specialized educators through rigorous technical training. Representing a cross-institutional coalition from NISE and various specialized high schools, these teachers are now equipped to ensure the national curriculum is accessible to all.

# EDUCATION FOR DEAF

## IN 2025

**768**

**189**

Children received eye screenings

## ADVOCACY AND AWARENESS RAISING

Seven years after transferring our specialized schools to the Ministry of Education, Krousar Thmey's commitment to youth with disabilities remains resolute. Our focus has evolved through the Empowering Future project, which bridges the gap between the classroom and the workforce. We believe true inclusion is found in independence, securing pathways to higher education, vocational training, and meaningful employment.

In 2025, we achieved a significant milestone by hosting two intensive awareness workshops for 119 participants, including parents, school directors, and employers. These sessions serve as catalysts for systemic change, challenging perceptions and demonstrating how workplace adaptations can unlock the immense potential of persons with disabilities.

By educating the stakeholders of the labor market, we are ensuring the environment is as ready for our youth as our youth are for the world. This mission is the heartbeat of Krousar Thmey: transforming the hope of social inclusion into a lived reality of dignity and self-reliance.

The continuous advocacy was matched by our leadership at the 13th National Forum on Inclusive Education. Centered on the theme of the year "Developing the capacity of teachers and stakeholders to ensure children of all abilities receive quality, inclusive education", we engaged 243 stakeholders from the Royal Government, civil society, and the private sector to share best practices and strengthen resources for inclusive learning – a high level awareness mission.

# OR BLIND CHILDREN

“

## TESTIMONY - LY Sovan, 26 years old, a beneficiary of Low Vision Project

*“I lost my sight at eight months old, but I never lost my vision for the future. Today, I don’t just receive support; I provide it,” LY Sovan.*

26-year-old LY Sovan is rewriting the rules of success, proving that inclusive education is the ultimate catalyst for a life without limits. Born in Pursat Province and losing his sight to measles as an infant, Sovan’s journey from a rural village to a bachelor’s degree in international relations is a testimony of resilience.

Sovan’s path was paved by Krousar Thmey’s specialized schools in Siem Reap and Phnom Penh. However, his transition into the professional world was fueled by our empowering future project. Through intensive workshops in critical thinking, leadership, and a regional youth summit in the Philippines, Sovan didn’t just learn to adapt, he learned to excel.

In 2024, the circle of empowerment was completed when Sovan joined Krousar Thmey as a project support officer. Today, he works with the same precision and speed as his sighted peers.

His daily impact includes, representing the organization at high-level meetings, recording detailed minutes, translating reports, assisting project monitoring with story development.

Sovan is no longer a beneficiary; he is a colleague, a leader, and a bridge to the future for the next generation of children with disabilities.

His story proves that with the right tools, sight is not a requirement for success - vision is. His ultimate goal is to see the blind community in Cambodia grow and thrive, reaching the same levels of opportunity and inclusion in developed nations.

”

## STRATEGY IN 2026

**Foster and support disability-led initiatives**

**Support and finalize the syllabus** of deaf education grade 4

**Promote social inclusion** by strategically transform the current program to  
**“Disability Inclusion Program”**

## OBJECTIVE

Enable children to make  
their **cultural**  
**heritage,**  
and **their own**  
and to grow through  
the (re)discovery  
of **TRADITIONAL**  
and **ARTS**

# ARTISTIC DEVELOPMENT

A person wearing a light pink long-sleeved shirt is shown from the chest up, with their hands raised in front of them, palms facing forward. The background is a blurred indoor setting with warm tones.

*From its beginnings in the refugee camps, Krousar Thmey has sought to foster in the children a sense of belonging to Cambodian society and thus facilitate their knowledge of their roots and their social (re)integration upon repatriation. The Foundation has set up cultural exhibitions for the public and initiated art classes for children to teach them music, traditional dances and Shadow Theater.*

*In addition to passing on a culture and know-how from one generation to another, Krousar Thmey strongly believes that art provides therapeutic support for children with troubled pasts or disabilities. Today, the program is divided into two parts: the School of Khmer Arts and Culture in Serey Sophon, and artistic activities in the Foundation's protection structures.*

*Following the transfer of the five special schools of Krousar Thmey to the Cambodian authorities in 2019, the cultural and artistic education taught within these structures is now under the responsibility of the Ministry of Education.*

## PROMOTING KHMER HERITAGE THROUGH ART CLASSES AND PUBLIC PERFORMANCES

In parallel with our nurturing art classes, Krousar Thmey's permanent troupe at the School of Khmer Arts and Culture in Serey Sophon conducted dynamic mobile art awareness sessions, delivering authentic Khmer traditional dance and music directly to local communities. This initiative aimed to preserve and promote our rich cultural heritage amid modern influences.

During the year, 1088 pupils from four different schools in Serey Sophon participated enthusiastically in free art class programs offered during school terms and summer breaks. These accessible sessions provided hands-on learning opportunities, instilling pride and skills in Khmer traditions among the next generation.

The outreach not only sparked immediate engagement but also laid foundations for sustained cultural continuity.

We extend our sincere thanks to CIA International School for their pivotal support in realizing this impactful effort beyond the School of Khmer Arts and Culture, enabling broader access to our invaluable heritage by providing opportunity to children from Child Protection Center to perform traditional dance at their event "Concert for a Cause" in 2025.

# ARTISTIC DEVELOPMENT

## REFLECTION ON THE FUTURE OF THE KROUSAR THMEY SCHOOL OF KHMER ARTS AND CULTURE

Since 1996, the Krousar Thmey School of Khmer Arts and Culture has stood as a sentinel of cultural resurgence. In a region historically susceptible to external hegemonic influences, the school catalyzed the revitalization of traditional shadow theatre, an art form nearly extinguished during the Khmer Rouge era.

Today, it remains an indispensable entity for the preservation of Khmer cultural heritage, providing equitable access to music, dance, drawing and sculpture for over 1,000 students annually.

Following the strategic action 2021-2025, the school will be transferred to the Ministry of Culture and Fine Arts by 2025. The limited government budget for the cultural sector has delayed the realization of this goal. Nevertheless, the Ministry of Culture and Fine Arts is committed to

continue the discussion with the Government of Banteay Meanchey province in 2026 to find the best resolution for the future of this program.

The legacy of Khmer arts and the opportunities to experience this thousand-year heritage of thousands of children now depend on decisive governmental action. Together, we must ensure that this Cambodian national treasure does not fade away.

# CULTURAL AND

 IN 2025

**1088**

Students enrolled during the school year

**115**

Children from our child protection structures

**600**

“

## TESTIMONY - EN Rothanak, 14 years old, beneficiary of the school of arts

*At 14 years old, EN Rothanak's life took a melodic turn when an outreach program from the Art School visited Serey Sophon High School. Now a grade 9 student, Rothanak has spent the last two years immersing himself in the intricate rhythms of Khmer traditional music, specializing in the Takhey (zither) and the Roneath Ek (xylophone).*

*Reflecting on his early days, Rothanak notes, «Initially, the complexity of the instruments was daunting. However, through consistent practice and mentorship, the challenge evolved into a passion.» Today, he performs complex traditional compositions with ease.*

*The pinnacle of his journey thus far was his debut performance in the capital. "The excitement of performing in Phnom Penh before a live audience was unforgettable," Rothanak recalls.*

*This exposure not only boosted his confidence but also reinforced the importance of cultural visibility.*

*Rothanak exemplifies the holistic development that our programs aim to foster. While he excels in Mathematics and aspires to serve his community as a medical doctor, he remains resolute in his commitment to the arts.*

*«My ultimate dream is to promote Khmer music to the world, ensuring that our traditional sounds are heard far beyond Cambodia's borders.»*

## STRATEGY IN 2026

**Uphold cultural heritage** through decisive governmental integration with the Ministry of Culture and Fine Arts

**Ensure the continuity** of art classes in the child protection centers

## OBJECTIVE

Support young Cambodians in building their future by facilitating access to **Higher Education, Vocational Training** and **Employment**

# CAREER COUNSELLING

***Since 2011, Krousar Thmey has supported the young people in its programs in building their futures, particularly in terms of access to higher education, vocational training or employment.***

The Foundation provides them with advice, personalized follow-up and guidance towards the path best suited to their needs and desires.

The project officers also offer various workshops and trainings to middle and high school students, with the aim of increasing their interpersonal and non-technical skills on various topics such as life skills, self-confidence,

problem solving, communication, interview preparation, and life goal setting.

Following the transfer of the special schools in 2019, the NISE became responsible for the follow-up of students with visual or hearing disabilities, with the backup support of Krousar Thmey who is also directly involved in the follow-up of the youth in the Child Welfare program both inside and outside cases.

The support to outside cases was launched officially in 2024 following Krousar Thmey's global strategy to strengthening durably the community.

## EMPOWERING TRANSITIONS: ACADEMIC AND CAREER COUNSELING (ACC)

Krousar Thmey's Academic and Career Counseling (ACC) initiative provides a holistic framework of support for youth across the North and South zones, ensuring individualized guidance for both residents of our protection centers and youth supported as outside case under the umbrella of the Child Welfare Program.

Our officers facilitate a multi-dimensional strategy, beginning with soft-skills training delivered by our staff, international specialists, and corporate partners. These interventions are designed to instill core competencies and clarify professional aspirations for the next generation.

To ensure diverse pathways to autonomy, we maintain strategic alliances with 20 vocational training institutes and universities, benefiting 130 beneficiaries this year.

Our commitment remains solid beyond grade 12; we provide a vital safety net for youth transitioning to independent living through monthly financial stipends, educational materials, and transitional housing.

The efficacy of this personalized oversight is reflected in the 249 individualized counseling sessions

conducted in 2025. Each intervention is driven by a singular mandate: equipping youth with the psychological resilience, technical, and soft skills required to embrace life as responsible adult and achieve sustainable self-reliance.

This comprehensive model ensures that every beneficiary is empowered to reach their goals with clarity and confidence.

# CAREER COUNSELLING

“

## TESTIMONY - MAN Samet, 20, beneficiary of the Academic and Career Counselling

For MAN Samet, the path to professional and independent life was built on a foundation of early support and unwavering determination. A beneficiary of Krousar Thmey's outside case support, Samet received the vital assistance she needed to navigate the most critical years of her education. Her hard work culminated in a triumphant success: graduating high school in 2024.

While financial constraints meant university was out of reach, Samet's ambition didn't falter. In January 2025, she pivoted toward her passion, enrolling in culinary arts at Spoon Cambodia. What followed was a year of intensive growth. Samet mastered kitchen management and completed six months of hands-on internships at prestigious partner restaurants.

Her instructors quickly noted her discipline; her talent was so evident that host companies sought to hire her before she even held her diploma.

## IN 2025

**378** | Youths supported

**198** | Students in high school

**95** | Youths in employment

**70** | Youths enrolled at university

**12** | Youths in vocational trainings

Today, the 20-year-old student has been transformed into a professional. Completing the vocational training course in December 2025, Samet is now a chef at a boutique establishment in Siem Reap province, doing work she truly loves.

Reflecting on her transition from a struggling student to a skilled professional, Samet is filled with gratitude. «I am so happy with where I am today,» she shares.

«I want to say a profound thank you to Krousar Thmey for helping me build the foundation I needed to find a career that brings me joy.»

”

## STRATEGY IN 2026

**Make Academic and Career Counseling**  
Project integral part of Child Welfare Program

**Ensure the continuous expansion** of the project to outside cases for sustainable independence

## OBJECTIVE

**Monitor** and **strengthen** the health of vulnerable **children and staff** supported by Krousar Thmey in order to **restore** and maintain a **health condition** conducive to **development** and **full life potential**

## PREVENTION, TREATMENT AND HYGIENE

Each child admitted into a protection structure benefits from a health assessment and an individual health record, enabling longitudinal monitoring of their health status in accordance with Cambodian authorities and the recommendations of the Cambodian Ministry of Health.

As part of the prevention, the children received general medical consultation, classic vaccination (polio, tetanus, etc.), specific vaccination (human papillomavirus, hepatitis B, etc.), and dental check-up. Once getting sick, the children were referred to the hospital facilities for specialized care. They also received anti-parasitic treatment, treatment for chronic hepatitis B, and specific dental treatment. Krousar Thmey's staff also benefited from some specific vaccination and treatment.

There were 939 regular hygiene and 941 oral hygiene awareness sessions conducted within the centers, families and children's communities in 2025.

The activities of the Health and Hygiene Project were coordinated by the Project Officer who conducted 14 visits in 2025 to the Protection Centers and Family Houses, enabling the identification of needs, support to teams, and oversight of activity continuity and medicine stock management.

Within the centers, there is a designated focal point who is responsible for the daily monitoring of children's health status, management of first aid, and coordination with medical services when required.

## NURTURING RESILIENCE: PRIORITIZING MENTAL HEALTH AND WELL-BEING

For children who have survived trauma and displacement, the journey to recovery extends far beyond physical safety. Recognizing the profound behavioral and emotional challenges faced by the children in our care, Krousar Thmey reached a new milestone in 2025 by integrating mental health support into our core services.

Through a technical partnership with TPO, our staff translated expert psychological knowledge into practical, age-appropriate support for 138 children and youth across our protection centers and family houses.

The results of this dedicated focus have been transformative:

- Behavioral rehabilitation: a visible shift toward positive social interactions and peaceful mindsets.
- Academic growth: improved concentration and performance in the classroom.
- Self-discovery: most importantly, children are gaining the emotional tools to understand their past and reclaim their identity.

This initiative reflects our “Children First” philosophy and our commitment to using partner funding with maximum efficiency.

By investing in the mental “infrastructure” of these resilient young people, we are ensuring that their transition into society is built on a foundation of true inner peace and self-worth.

## ROBUST NETWORK OF HEALTHCARE

All the activities of health and hygiene project in 2025 were made possible through a solid partnership with NGOs and private health structures including L’Amicale des Etudiants en Pharmacie et des Pharmaciens Khmers de France (AEPK), Help Kampuchea, Health Action Coordinating Committee (HACC), Transcultural Psychosocial Organisation (TPO), One-2-One Cambodia, Cambodia World Family, University of Puthisastra Dental Hospital, Thyda-Narom Maternity Clinic, and a bunch of public health administrations and structures (Health Centers and Referral Hospitals).

An outreach of health workshops and on-site clinical assessments was particularly facilitated by Krousar Thmey in collaboration with AEPK and Poipet Referral Hospital benefiting marginalized populations including a monastic community.

It represents a significant expansion of inclusive healthcare.

### IN 2025

- 100**  New children vaccinated
- 115**  Children monitored by local doctors
- 85**  Children individually monitored by psychologists
- 68**  Members received first aid training

“

## TESTIMONY – SETH Chi O, 15 years old, Krousar Thmey beneficiary of Health and Hygiene

SETH Chi O., 15 years old, is a grade 5 student at Preah In Kosey Primary School in Siem Reap. A migrant child, he lived for several years in Thailand in precarious conditions before being welcomed in 2024 at Krousar Thmey's Temporary Protection Center in Poipet. He was later transferred to the Long-Term Protection Center in Siem Reap, where he currently lives and continues his education in a safe and stable environment.

Before joining Krousar Thmey, Seth's health was fragile. He regularly suffered from prolonged fevers, dental pain, and frequent nosebleeds. These health issues affected his overall well-being and his ability to concentrate.

Since living at the protection center, Seth has acquired essential knowledge through the Health & Hygiene Project. He has learned how to take care of his body, brush his teeth properly, wash himself, clean his nails, wash his clothes, and maintain his bedding. He also actively contributes to keeping his environment clean by sweeping floors, cleaning common areas, and placing pillows and mosquito nets in the sun to keep them hygienic.

He has adopted healthier daily habits, including drinking between one and one and a half liters of safe drinking water per day, eating balanced meals, and engaging in daily physical activity with the other children.

These changes have had a tangible impact: his nosebleeds have almost disappeared, he rarely gets sick, and fever episodes have become exceptional.

The project has also contributed to his psychological well-being. Through activities conducted with TPO, Seth discovered meditation: "When I meditate, my feelings become silent and calm, and I can concentrate much better."

Today, his daily routine is structured and balanced. Seth now considers himself "95% confident" in his ability to take care of his health and has become a positive role model for other children.

He encourages his peers to clean shared spaces and he also raises awareness among them about health risks related to pollution, such as burning plastic.

”

## STRATEGY IN 2026

- **Institutionalize psychosocial** and mental health first aid support
- **Sustain a multi-faceted paradigm of healthcare** through strategic local alliances
- **Shrink the Health and Hygiene Project** to better respond to the needs with a more efficient action

*Looking at the level of annual expenditure in 2025, if Krousar Thmey Cambodia had not benefited from the unrestricted funds accumulated over many years and transferred from Krousar Thmey France, nor from interest gained from term deposits and proceeds from asset sales, a deficit of 50% would have been imminent, putting Krousar Thmey's financial health at risk.*

Despite revenue from interest income and unrestricted funding, the Organization remains in a fragile financial position. The global funding environment in 2025 was challenging for almost all humanitarian organizations.

Krousar Thmey has been taking steps to address these funding challenges, with a particular focus on the emerging CSR model in Cambodia.

In addition, the Organization has sought to build and strengthen relationships with local funders, including newly established foundations and organizations whose missions are to support local organizations in implementing activities on the ground. However, this funding culture remains fragile and will require time to develop and improve within the country.

Krousar Thmey continues to seek new funding partners who share its goal to carry forward its legacy in child protection, building a better future of the new generation, and encourage the establishment of a long-term, impactful community for persons with disabilities in Cambodia beyond 2026.

## STRATEGIC GOALS 2021-2025

Strengthen the Child Welfare Program: the heart of Krousar Thmey's work

**Maximize the quality** of support provided to children living in the facilities

**Empower the families** of reintegrated children by providing sustainable solutions

**Support all the youths monitored** in the framework of the academic and career counseling project to integrate into the workforce

**Have Krousar Thmey's expertise in child protection** and sustainable social reintegration services recognized by the target population and the Cambodian authorities.

**Transfer the Cultural and Artistic Development program** to the competent authorities (Ministry of Culture and Fine Arts and Ministry of Education): ensure the integration of the Serey Sophon School of Khmer Arts and Culture into the public education system

**Finalize the transition period for the transfer of the Education program** to the Ministry of Education to ensure that it takes charge of innovative services and projects for children with visual or hearing disabilities
